

Shields et al Survey Sept 26 1887.

Notices for three following Surveys were served under one form but for convenience I shall record and plat them separately.

Met according to Notice at residence of Jas. Shields on day appointed. adjourned until Wednesday Sept 28; reconvened on said Wed. organized by qualifying Feltus Dekard, Geo. Knight & James Shields as flagmen and chain-men, interested parties consenting. Began at S. $\frac{1}{2}$ m. p. of sec. ~~12~~ 2 T. 7 N. R. 1 W. ran thence East (or. $3\frac{1}{2}$) to S. W. cor. of Sec. 7. T. 7 N. R. 1 W. came out 27 poles 14 l. N. and 22 $\frac{1}{2}$ l. East of corner. (I had previously located sec. cor. by locating meridian line by running from S. W. cor. of Sec. 6 T. 7 N. R. 1 E north to established corner $\frac{1}{4}$ m. North and then measuring 10 poles north of said S. W. cor. of sec. 6.)

I then began at center of sec. 12. T. 7 N. R. 1 W ran North 100 ch. to established corner. Having missed desired point so much by using regular variation on first line run I was prepared to accept any evidence as to variation of this line. So when Jas. Shields positively declared a blazed hickory to be a line tree according to Prof. Woodburn I used it coming out 96 poles 22 l. W. and 29 links South of corner. From notes secured from two random lines above described I established the South $\frac{1}{4}$ m. p. of sec. on T. 7 N. R. 1 W.

Witnesses A. C. Gum 18 N. 68 W. 2 l.

Buck 16 S. 87 E 53 l.

Adjourned to meet Mon. Oct 3. 1887.

Sec. 1 T. 7 N. R. 1 W.
